Tiberias is a city that offers wonderful opportunities to mix relaxation with nature, history with contemporary attractions, serene quiet with active water sports, and pilgrimage sites with unique tourist attractions.

Hamat Tiberias National Park, includes seventeen hot springs whose 60-degree Celsius waters are infused with approximately 100 minerals with unique therapeutic qualities that can be found only here. The site's healing capabilities have been known for 2,000 years and the baths have attracted people since time immemorial. The spa offers several thermo-mineral pools, luxurious body treatments and unique health treatments as well as the quiet atmosphere and beautiful view of Lake Kinneret.

The Kinneret has attracted people for thousands of years, offering both a source of water and a livelihood. History has rendered both the Kinneret area and Tiberias itself important to both Christians and Jews. Herod Antipas founded the city in 17-22 C.E., naming it after his patron, the Roman Emperor Tiberius. In the second through tenth centuries, Tiberias was the largest Jewish city in the Galilee, the Jewish people's

political and religious hub, as well as the center of Jewish spiritual creativity.

A few years after its establishment, around 30 C.E., Jesus Christ moved his base of activities to the northern shore of Lake Kinneret, where several well-known miracles took place including walking on the waters of the lake. As Christianity took hold, many churches were built in Tiberias and its surroundings. Alongside the Christian holy sites, Tiberias is dotted with the burial sites of Jewish sages, making it one of Israel's holy cities. Pilgrims flock to the tombs of Rabbi Akiva, Rabbi Yochanan Ben-Zakai, Rabbi Meir Baal HaNess, and the tomb of the great philosopher and sage Maimonides.

The Kinneret played an important role in the early years of Christianity and has now become a pilgrimage site for many Christians. There are many Christian holy sites around the Kinneret, including the Church of St. Peter and the nearby Mount of Beatitudes, Capernaum, Kursi, and the wooden "Jesus" boat discovered in the lake and now on display at Kibbutz Ginosar.
